-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 August 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 276-282, 349-549, drawn to surgical device, classified in class 623, subclass 11.11.
- II. Claims 283-348, drawn to surgical method, classified in class 128, subclass 898.

The inventions are distinct, each from the other because of the following reasons:

Inventions of group I and group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the product does not require the method step of implanting the device in an artery or a lumen.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

This application contains claims directed to the following patentably distinct species:

1) figures 1A; 1B; 1C; 2A; 2B; 2C; 2D; 2E; 2F; 2G; 2H; 2I; 2J; 2K; 2L; 2M; and 2N. The species are independent or distinct because the various embodiments directed to placement of the therapeutic agents are distinct from each other.

Moreover, there application contains claims directed to the following distinct species.

- 2) luminal prosthesis: stent, graft, organ,
- 3) matrix degradation: surface; bulk
- 4) prosthesis coating : one layer; plural layers
- 5) therapeutic agent: with compound: sequential release; prior release;
concurrent release
- 6) secondary agent: enabling compound; therapeutic agent; second
compound
- 7) method: delivering therapeutic agent to tissue site in corporeal body;;
method for delivering agent to artery;
method for delivering therapeutic agent luminally;
method for delivering therapeutic agent intracorporeal
- 8) expandable structure: metal; polymer; natural material

9) Release rate: constant; decrease; increases; non-release; plurality of rates; delayed

10) Rate controlling element: matrix; parylast/parylene; energy; magnetic

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
